

Fire Station Metal Buildings

NUCOR
BUILDING SYSTEMS

The Brand of Choice

www.NucorBuildingSystems.com

Green from the Start

Steel is the most recycled material in the world, and Nucor is the largest recycler in North America - recycling over 20 million tons of steel per year. Nucor Building Systems buildings average 87% recycled content, and our roofs are Cool Roof rated by the CRRC. Your fire station may also earn LEED points.

Design Flexibility

Nucor metal building designs are equipped to meet the unique needs of a fire station. Metal building technology allows your design professional the freedom to concentrate on improving the form and function of your fire station, while you enjoy the economic benefits of a steel building system.

Economical and Efficient

A fire station involves unique design needs that require the kind of flexibility that is inherent in metal building construction: truck/apparatus bays, fire walls, mezzanines, as well as a kitchen, living and sleeping areas, office space, training center, and often a physical conditioning room.

Stringent Design Standards

Custom Designed Building

As a leader in the steel and metal building industry, Nucor offers the advantages of design flexibility and energy efficiency - creating a fire station uniquely suited for your specific needs. Not to mention the predictable stability of a steel building. For the competitive advantages over traditional construction, turn to Nucor Building Systems.

Why Nucor Building Systems?

The Highest Quality Standards

Nucor Building Systems is one of the first metal building companies to achieve IAS AC472 accreditation - the high quality standard certification program written specifically for the metal building industry. All engineering follows industry specifications and standards published by the American Iron and Steel Institute, Canadian Sheet Steel Building Institute, and the Metal Building Manufacturers Association, with the ability to design to Factory Mutual approval. These standards help ensure you have a safe, dependable metal building.

Your Building Is Custom

Nucor Building Systems will custom design your facility, incorporating the latest engineering knowledge in the industry today, to meet your unique requirements. Your facility will be designed and certified by company registered professional engineers, and fabricated to your specific needs.

Financial Stability

As a Nucor (Fortune 500) company, we are one of the most flexible and diverse building manufacturers in operation today, with access to our own steel supply. Even in economic challenges, our no lay-off practice ensures your building is being designed and fabricated by well trained, loyal employees who know their jobs.

Indiana Plant

305 Industrial Parkway
Waterloo, IN 46793
Ph: 260.837.7891
