

March 6, 2020

Nucor Building Systems is constantly seeking ways to improve our product offering and remain the low cost supplier for our Builders. We are pleased to announce an improvement coming soon to our process for distributing the **Wall Sheeting Erection Manual**.

To improve efficiency and consolidate the documents sent out with orders; Nucor Building Systems is eliminating the Wall Sheeting Erection Manual previously sent with orders and replacing it with a single-page detail contained within the erection drawing package. This will eliminate the need to reference a separate manual from the erection drawings to install the wall sheeting and consolidate all information in one package.

Critical Dates: The transition to the new detail will happen immediately. Projects that are currently in production may have the Wall Sheeting Erection Manual sent to the jobsite during the transition period, but new projects will not receive the manual. The Wall Sheeting Erection Manual will be accessible for reference on the [Nucor Building Systems website](https://www.nucorbuildingsystems.com) until April 1, 2020.

Our Commitment

Nucor Building Systems is committed to ongoing improvements in all aspects of our business. This change is intended to enhance our product offerings and improve our costs and competitiveness in the market place. Your input and comments are always appreciated. If you have specific questions regarding this bulletin or any other area of our business, please contact your District Sales Manager or Project Coordinator.
