CUSTOM METAL BUILDING SYSTEMS

POWER + ENERGY

a **NUCOR**® company

As a leader in innovation, Nucor Building Systems works continuously to develop products that are some of the most versatile, energy-efficient and cost-effective building solutions on the market today. We work closely with our customers to gain a deeper understanding of their needs then develop new solutions or improve existing ones that provide them with high-performance, competitive products. From our proprietary design products, such as TrussFrame, to our insulated metal panels with cool coating technology, our products allow our customers to increase efficiency and qualify for LEED® points.

As an industry leader, our strength, capacity and resources offer unprecedented value to our customers. Our integrated infrastructure allows us direct access to an uninterrupted supply of steel and the ability to provide our customers with single source solutions for a wide range of products.

POWER + ENERGY

With over 30 years of experience, Nucor Building Systems understands the unique needs and requirements of the power and energy industries. Our products and technology allows your design professional the freedom to concentrate on improving the form and function of your facility, while you enjoy the built-in economic benefits a metal building system provides. Nucor buildings are as practical as they are versatile, designed for longevity with minimal maintenance, and providing years of reliable service and predictable stability.

Powerful Relationships. Powerful Results.

Nucor Building Systems is a division of Nucor Corporation, North America's most diversified steel and steel products company. Their integrated infrastructure allows us direct access to an uninterrupted supply of steel. As a result, we have the ability to provide our customers with single source solutions for a wide range of products. Our strength, stability, capacity, resources, and customer-driven focus offer unprecedented value to our customers.

Nationwide Authorized Builder Network

With a coast-to-coast Authorized Builder network, there is likely an experienced Nucor Builder in your local area to partner with on your custom metal building solution. We can also help government and municipalities with facility project needs through our Sourcewell pre-engineered buildings contract. Learn more about how Sourcewell can satisfy your competitive bid requirements and simplify the extensive bid process by visiting www.nucorbuildingsystems.com/sourcewell.

Green from the Start

Steel is the most recycled material in the world, and Nucor is the largest recycler in North America — recycling over 20 million tons of steel per year. Our steel building systems contain over 70% recycled steel and are 100% recyclable. Our buildings are adaptable to a number of energy efficient insulation systems. This includes our cool coated insulated metal panels, which can reduce energy costs. A low profile roofline can also eliminate unnecessary head room to heat and cool. Our building systems offer an opportunity to capitalize on earning LEED points right from the start.

Innovative, Cutting Edge Technology

As leaders in innovation, we continuously develop some of the most versatile, energy-efficient and cost-effective building solutions on the market today. We work closely with our customers to gain a deeper understanding of their building needs. As a result, we develop new solutions or improve existing ones that provide you with high-performance, competitive products.

Superior Product Systems

Nucor Building Systems has raised the metal building industry bar with our high-performance products designed to meet your unique needs. We offer a full range of metal building framing options, industry-proven roof panel systems, attractive wall panels, insulated metal panels, energy-saving prismatic skylights, innovative mezzanines, and multiple building accessories.

a **NUCOR**[®] company

Nucor Building Systems has been a leader in the design and manufacture of custom-engineered metal building systems for over three decades. With four locations and a network of over 1,200 Authorized Builders serving all of North America, our focus is on customer service, price, and quality. We are also dedicated to providing sophisticated building solutions for our customers that are energy efficient and environmentally friendly.
