

Florida State College Hangar

a **NUCOR** company

LOCATION

Jacksonville, FL

SIZE

120,000 sf

WALL SYSTEM

Nucor Classic Wall™

ROOF SYSTEM

Nucor CFR™ Standing Seam

A modern, efficient new building that will assist in training tomorrow's aviation workforce, Florida State College at Jacksonville (FSCJ) is a three-bay hangar with adjoining classroom space. It is jointly owned and operated by FSCJ and Jacksonville Aviation Authority.

This complex building features a combination Nucor Classic Wall™ and burnished face block exterior, ceiling heights up to 70', and three state-of-the-art Megadoors with raised tail sections. Each door system consists of three individually operated door leaves and two retractable mullions.

A combination of seven connected buildings, FSCJ's interior features galvanized secondary structures and a partial mezzanine. Wall lites allow for natural lighting and energy conservation.
