

Calvary Church Addition

a **NUCOR** company

LOCATION

Delran, NJ

SIZE

11,350 sf

WALL SYSTEM

Insulated Metal Panel

ROOF SYSTEM

Nucor CFR™ Standing Seam

This 11,350 sf project involved an addition to an existing church building. The new addition features unique, single slope configurations, and includes a new sanctuary, mezzanine, classrooms, and narthex. The structure is surrounded by parapet walls with insulated metal panels.
