Dave Carter & Associates, Inc. is a supplier to the manufactured housing and recreational vehicle (RV) industries for over 30 years. With locations across the United States, they provide a comprehensive selection of products to manufacturers throughout these industries from infrastructural products such as electrical and plumbing, to ventilation and air conditioning, doors and windows, electronics, and appliances.

After outgrowing their existing facility, Dave Carter & Associates planned an expansion to a new location designed using a custom Nucor pre-engineered building. The 186,000 facility includes primarily manufacturing and distribution space with over 8,000 sf office space and two 5-ton cranes.
