## ROOF SYSTEM

Nucor CFR™ Standing Seam

Disciples Church new campus sits on four acres and includes two separate buildings, a Worship Center and a Family Center.

The building components of this project include spaces specifically to be utilized for worship, administration, adult education, youth education and children education. These spaces were consolidated into two buildings for efficiency and a reduction of construction expense.

The Worship Center houses the worship, administration and adult spaces and includes a spacious lobby with a coffee bar leading into the 320-seat sanctuary. The second building houses the youth and children spaces.
