

# Dollar General Retail Stores

## LOCATION

Multiple locations throughout the United States

## SIZE

7,500 - 10,640 sf

## WALL SYSTEM

Combinations of metal panels with brick & masonry

## ROOF SYSTEM

Standing Seam

## DOLLAR GENERAL PROTOTYPES

Nucor Building Systems has designed and manufactured over one thousand Dollar General stores nationwide. Our custom pre-engineered metal buildings offer Dollar General Stores the upmost efficiency designed as single slope structures in three basic sizes: 7,500 sf, 9,100 sf, and 10,640 sf. These standardized store layouts provide customers with clearly displayed products for convenience, value, and a fast check out process.

Exterior finishes for Dollar General projects typically include attractive combinations of metal panels, brick, and masonry. All new stores are built with standing seam roof systems.

## BENEFITS OF PARTNERING WITH NUCOR BUILDING SYSTEMS

The Nucor Buildings Systems National Accounts program offers customers a single-source contact to ensure all project requirements are met on multisite developments across North America. Throughout the planning and construction process, they serve as a valuable resource and advocate on your project to simplify the entire process and add to your bottom line.

The NBS team used 3D Building Information Modeling (BIM) technology in the design phase of Dollar General projects to add powerful value and efficiency. By using BIM, a revolutionary technology in the construction industry, it allowed Dollar General to see three-dimensional conceptual replicas of their projects early in the design process, which enabled visualization, simplified decision-making and approvals. By sharing the BIM model with other trades, it can significantly increase collaboration and productivity in design and construction.

With eleven locations strategically located throughout the country and a coast-to-coast network of a combined 2,600 Authorized Builders, Nucor Building Systems companies are in the perfect position to deliver prototype buildings for Dollar General and other national companies. NBS continuously provides competitive pricing, predictable schedules, and proven performance.
