

FedEx Ground Facilities

a **NUCOR** company

LOCATION

Various locations throughout North America

SIZE

3,000,000 sf +

Federal Express has been a customer of Nucor Building Systems for over 15 years, delivering primarily FedEx Ground facilities. Over the past decade, NBS has manufactured more than 50 buildings for FedEx totaling over 3 million square feet of space. Through this ongoing partnership, NBS has developed an understanding of FedEx's expansion requirements and has been able to respond quickly and efficiently to consistently provide them with cost-effective building solutions.

Typical FedEx facilities are comprised of large, multi-span buildings with bar joist construction, multiple overhead doors, metal wall exteriors, and Nucor CFR™ standing seam roof system.
