

Lyon Township Fire Hall

a **NUCOR** company

LOCATION

Lyon Township, MI

SIZE

12,000 sf

WALL SYSTEM

Nucor Accent Wall™

ROOF SYSTEM

Nucor VR 16 II™ Standing Seam

The Lyon Township Fire Hall serves as the area's main apparatus building with three drive through bays capable of holding six fire engines. The building also includes complete amenities for firefighters such as locker rooms, laundry, commercial kitchen and dispatch. The lower adjacent structure houses office space. The Fire hall features a large common space designed to host large meetings and annual fundraising activities.

The structure utilized a custom Nucor building with VR 16 II™ Standing Seam roof system and Nucor Accent Wall Panels. The apparatus building has complete liner on the walls and ceiling. The project also has a 22,000 gallon reservoir under the floor for fire suppression. The exterior of the building has a 2' overhang and a valley condition where the buildings join together.
