

Redemption Point Church

a **NUCOR** company

LOCATION

Ooltewah, TN

SIZE

33,000 sf

WALL SYSTEM

Nucor Classic Wall™ with EIFS

ROOF SYSTEM

Nucor CFR™ with VR16 II™ at entrance

Built in two phases, this 14,000 project entailed an addition to an existing Nucor structure originally built in 2003. Surrounded by parapet walls, the expansion is a combination of three single slope buildings with a new gabled entrance. The skewed design of the narthex includes a curtain wall glass entrance and a below eave canopy.
