Restaurant Depot is a wholesale food product supplier for independent restaurants, caterers and non-profit organizations. The facility is 92,000 sf in size and includes an extensive amount of high-stack storage racks as well as an enclosed 10,000 sf refrigerated food area with a 5,000 sf freezer room and a hydraulic crane.

The building's exterior includes over 20,200 sf of canopy space and is finished with Nucor insulated wall panel.

In addition to this facility, Nucor has supplied pre-engineered buildings for two additional Restaurant Depot facilities located in New York.
