

South Metro Church of God

a **NUCOR** company

LOCATION

Sharpsburgh, GA

SIZE

31,000 sf

WALL SYSTEM

Nucor Reverse Classic Wall™, Studs & EIFS

ROOF SYSTEM

Nucor CFR™ and VR16 II™

The South Metro Church of God project involved a massive expansion including a 19,000 sf sanctuary, four single slope buildings, two lean-tos, and a foyer. All buildings are custom Nucor pre-engineered clear span structures. The front features parapet walls and a small below-eave canopy. Along the sidewall is an open 500 sf drive-thru canopy.
