

Engineered Flooring Manufacturing Facility

a **NUCOR** company

LOCATION

Calhoun, GA

SIZE

492,000 sf

WALL SYSTEM

Nucor Classic Wall™ System

ROOF SYSTEM

Nucor CFR™ Standing Seam

Engineered selected north Georgia to locate their new company. The north Georgia area is known as the home to the tufted carpet industry and Engineered wanted the experience workforce to be available for their new modern fast growing carpet mill.

The manufacturing complex is comprised of multiple single sloped buildings, featuring the Nucor ClearBay® bolted roof joist system. The exterior of the buildings are finished with Classic Wall™ and precast tilt-up. The buildings are completed with Composite Nucor CFR™ roof system.
