LOCATION

Tualatin, Oregon

SIZE

3,720 sf

WALL SYSTEM

Nucor Classic Wall™

ROOF SYSTEM

Nucor Classic Roof™

A horse barn located on a family farm, this metal building features a partial mezzanine with a catwalk for hay and equipment storage. With no interior columns, there was complete design freedom for the stalls, tack room, and grooming areas, as well as a wide open aisle. The full length canopies along both sidewalls give additional shade and protection for their horses.
