LOCATION

Syracuse, NY

SIZE

35,000 sf

WALL SYSTEM

Nucor Reverse Classic Wall™

ROOF SYSTEM

Nucor CFR™ Standing Seam

This new 35,000 sf custom Nucor building is designed to be used for an office, fabrication and warehouse facility. The office portion features private offices, meeting space, conference room and kitchen area. The warehouse and fabrication area features a partial mezzanine with high bay storage, overhead crane, steel fabrication area, and a loading dock. The building was designed to incorporate high bay windows to allow natural lighting into the warehouse.

The exterior of the building is finished with Nucor Reverse Classic Wall™ panel and a Nucor CFR™ Standing Seam roof system.
