The Hendricks County Fairgrounds is a state-of-the-art site situated on 110 acres located outside of Indianapolis. Nucor Building Systems provided 13 pre-engineered buildings for the complex totaling over 250,000 sf of space allowing them to host a variety of indoor and outdoor events throughout the year. This includes a new equine center which is considered one of the premier facilities in the midwest and features covered show and makeup arenas with seating for 1,000, a horse barn with 150 stalls and wash racks, and a two-story air-conditioned announcer stand.
