

# PRODUCT BULLETIN

February 25, 2016

Nucor Building Systems is constantly seeking ways to improve our product offering and remain the low cost supplier for our Builders. We are pleased to announce that we have refined the Standard Walkdoor offering that is available in eQuote.

The standard offering has been simplified and refined to better suit the needs of our customers by providing a better quality door package at a reasonable cost. The flexibility to choose a 3070, 4070, 6070 Knock Down, Pre-Assembled, and Wind-Rated walk doors will remain.

Note: We will still be able to provide all options that were previously available in eQuote and can accommodate other products that our suppliers have to offer. This can simply be noted in the contract. (Certain restrictions will apply to the other products our suppliers have to offer)

Updated literature will be available soon.

**Critical Dates:** The new product offering is available immediately in eQuote. Contact your local Sales Representative for more information.

### **Our Commitment**

Nucor Building Systems is committed to ongoing improvements in all aspects of our business. This change is intended to enhance our product offerings and improve our costs and competitiveness in the market place. Your input and comments are always appreciated. If you have specific questions regarding this bulletin or any other area of our business, please contact your District Sales Manager or Project Coordinator.
