

Belfor USA, Headquarters Office & Distribution Center

a **NUCOR** company

LOCATION

Exton, PA

SIZE

70,560 sf

WALL SYSTEM

HE40 Insulated Metal Panel

ROOF SYSTEM

Nucor CFR™ Standing Seam

Belfor USA provides emergency disaster recovery services to structures or items that have experienced damage due to man-made or natural disasters. The new 70,560 sf facility serves as the headquarters for local responses and also as a distribution center for supplies.

The building was designed using a custom Nucor metal building with 24 metal building windows, accent strips, and architectural features. The exterior of the building is finished with insulated metal wall panels and a Nucor CFR™ Standing Seam roof system.
