

Powdersville YMCA

a **NUCOR** company

LOCATION

Piedmont, SC

SIZE

33,000 sf

WALL SYSTEM

By Others

ROOF SYSTEM

Nucor CFR™ Standing Seam

The Powdersville YMCA was recently constructed on a new site to serve the needs of the local community. The new facility includes an expansive fitness center, group exercise studios, an outdoor fitness area, a large flexible use gym, a community meeting room, childcare spaces, a large multipurpose room, and athletic fields.

The building was designed using a 33,000 sf pre-engineered Nucor building with a Nucor CFR™ Standing Seam roof system.
