LOCATION

Tontitown, AR

SIZE

28,000 sf

WALL SYSTEM

Nucor Classic Wall™

ROOF SYSTEM

Nucor CFR™ Standing Seam

Paschal Air, Plumbing & Electric has served residential and commercial customers in Northwest Arkansas communities for over 50 years. They chose a Nucor metal building as part of their new modern warehouse and office headquarters, located in Tontitown, Arkansas.

The new facility consists of a 30,000 sf conventional steel office building attached to the 28,000 sf pre-engineered warehouse building by Nucor. In addition to storage space, the warehouse provides Paschal with additional work spaces such as a sheet metal shop, and a company vehicle maintenance area. The warehouse exterior features a 15-foot projection canopy, Nucor Classic Wall panels, and a Nucor CFR standing seam roof system.
