

September 2019

Upcoming NBS Builder & Erector Schools

Join Us at One of Our 2-day Schools Designed Just for Authorized Nucor Builders!

Held on-site at your division, each Builder School session includes sales and technical instruction about Nucor products and services. Also included is training on eQuote and Nucor Steel Store—Nucor’s online quote and order tools designed exclusively for Nucor Builders. An introduction to the Builder Dashboard will also be covered. Lunch is provided each day, along with a fun group dinner.

The cost of the school (excluding travel and hotel expense) was included when you signed as a Nucor Builder. To register for a session or get more information, click the buttons below!
