Safeway Packaging is a leading manufacturer of corrugated and fiberboard packaging. Their 260,000 sf manufacturing facility is part of the Bunker Hill Industrial Park and consolidates two plants into one as part of their strategy to increase efficiency across operations.

This massive facility includes 120,000 sf used for manufacturing, 13,000 sf of office space and a 127,000 sf warehouse. The building was designed with a partial mezzanine, 50 foot bay spacings, and long span bar joists. The warehouse includes multiple truck docks.
