Webinar “Navigating the Pandemic” offers guidance and resources

We know that understanding and planning for your business during the current pandemic, COVID-19, can be a challenging task. That’s why we are bringing you a “Navigating the Pandemic” webinar from Gene Marks.

The information in this webinar offers guidance and resources for Small Businesses on the loan programs currently available from the Federal government. Gene was scheduled to be a keynote speaker at some of our planned Regional Builder Meetings, which have since been cancelled.

Gene owns and operates the Marks Group PC, a highly successful ten-person firm that provides technology and consulting services to small and medium sized businesses. He is an author, columnist, keynote speaker and small business expert. Nationally, Gene appears regularly on **MSNBC** and **Fox News** as well as **The John Batchelor Show** and **SiriusXM’s Wharton Business Channel** where he talks about the financial, economic and technology issues that affect business leaders today.

This webinar has been developed specifically for you – our Builders. We are here to help provide support at this time and hope that this information will be beneficial. The webinar is less than 30 minutes and you can view it anytime on demand.

If you have questions, Gene is available for contact at gene@marksgroup.net.
