

## January 2021

There is an eQuote update scheduled for Tuesday, January 19, 2021, from approximately 10:00 PM to 11:30 PM Eastern Standard Time. The site will be unavailable during this update.

As you know, pricing can fluctuate. It is extremely important that you understand and communicate the "Order Entry Date" and "Must Ship by Date" with your clients. If a special circumstance presents itself, please contact your District Sales Manager (DSM) or Project Coordinator (PC). Please be sure to update any quote from Nucor before you close an order where the "Order Entry Date" has expired.

We are continually updating the eQuote site with improvements and enhancements. See some of the recent changes below. For eQuote system requirements, frequently asked questions or additional resources, please visit the NBS [Builder Dashboard](#).

### **Technical Support:**

- Phone: 877-237-8831
- Email: [NBGSoftwareSupport@nucor.com](mailto:NBGSoftwareSupport@nucor.com)

### **Pricing Support and Training:**

- Contact your **District Sales Manager** and/or Estimating Department.

### **Release Notes:**

#### **Updates Effective on January 20, 2021**

- Performance and stability improvements to several areas of the website.
- Improvements have been made in the clarity of communication of the insulation information, including the ability to indicate the desired R-value rather than just the insulation thickness.
- The Roof Sheeting screen now displays the panel profile and the insulation profile in enlargeable sketches.
- eQuote now allows the selection of the R-Boost™ Elevated Roof Insulation System.
- eQuote now allows the selection the girt and purlin spacing and girt and purlin depth. Choices are reflected on the proposal.

#### **Updates Effective on December 16, 2020**

- Performance and stability improvements to several areas of the website.
- A new seismic Site Class option has been added to the Codes / Loads Requirements screen to clarify "Assumed" or "Soils Report" for IBC 2018 based codes.

#### **Updates Effective on November 16, 2020**

- Performance and stability improvements to several areas of the website.

#### **Updates Effective on October 6, 2020**

- Performance and stability improvements to several areas of the website.
- Added the ability to specify and price the following building codes: 2019 Chicago, 2019 Colorado, 2020 Minnesota, 2014 New York City, 2019 New Hampshire, 2018 New Jersey, 2020 New York State
- Improved the purlin optimization to obtain better purlin results.
