Burnished Slate

## ROOF SYSTEM

Nucor CFR™ Standing Seam  
Galvalume

## BUILDING END-USE

Glass and Aluminum Systems  
Manufacturer

This new manufacturing warehouse and industrial office facility was constructed for Tuxedo Glass & Mirror Company, Inc. The clear span building includes a mezzanine providing offices, conference room, reception and employee break areas. The second floor of the mezzanine is designed for future offices.

The building is covered with a CFR roof that includes translucent panels allowing natural light throughout. Delivery trucks and shipping have optimal access utilizing two coiling overhead doors and a bi-fold airplane hangar door. The exterior of the facility combines Nucor Classic Wall™ panels and attractive window systems.
