

October 6, 2022

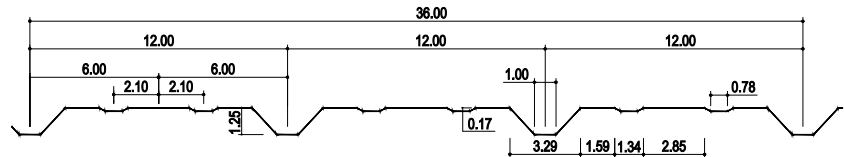

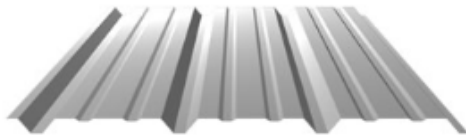

Nucor Building Systems is constantly seeking ways to improve our product offering and remain the low-cost supplier for our Builders. To increase efficiency and alignment across our product line, we are introducing the following product changes to our **Wall Panel Names, VR16 II Roof Panel Name and Trims Availability**. Below is a summary of the upcoming changes and areas affected:

- **Wall Panel Name Change:** Wall panels will be renamed to R-Panel, Reverse R-Panel and A-Panel. No change to profile. New panel profiles specs are shown below.

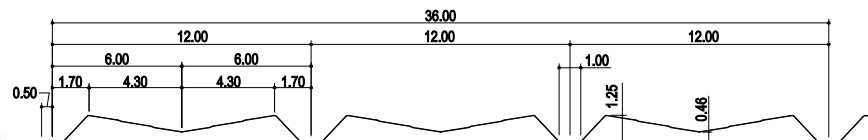

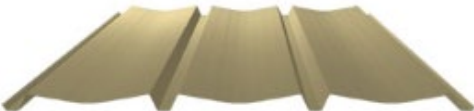

## R-Panel (formerly Classic)

## Reverse R-Panel (formerly Reverse Classic)

## A-Panel (formerly Accent)

- **VR16 II Panel Name Change:** The VR16 II panels will be renamed to Loc Seam. No change to profile. Loc Seam will continue to be available in 90 degree (Loc Seam 90) and 360 degree (Loc Seam 360) seaming options.
- **Roof Line Trims:** Roof Line trims, Simple Rake, Simple High Eave and Sculptured Low Eave has been eliminated from the standard product offering due to very low sales requirements. Sculptured Rake, Sculptured High Eave and Sculptured Gutter will be the standard roof line trims.

For updated sales literature, please reference the [Product Catalog on our website](#).

# Product Bulletin

**Critical Dates:** These changes will be available in eQuote on October 14, 2022. The transition will take place incrementally and will affect some new projects designed beginning as early as November 2022. For more information, contact your local Sales Representative or Project Coordinator.

**Our Commitment**

Nucor Building Systems is committed to ongoing improvements in all aspects of our business. This change is intended to enhance our product offerings and improve our costs and competitiveness in the marketplace. Your input and comments are always appreciated. If you have specific questions regarding this bulletin or any other area of our business, please contact your District Sales Manager or Project Coordinator.
