a **NUCOR** company

LOCATION

Lexington, KY

SIZE

9,000 sf

WALL SYSTEM

Insulated Metal Panel

ROOF SYSTEM

Nucor CFR

Galvalume

BUILDING END-USE

Distillery

This 9,000 sf processing and warehouse is home to a bourbon whiskey distillery in Lexington. It is custom-designed using a pre-engineered metal building, complete with all the processing equipment needed for Alltech Town Branch Distillery. Glass curtain walls surround and enhance the entrance, with a parapet wall leading to the warehouse that features insulated metal wall panels and a Nucor CFR roof system in galvalume.
