Nucor CFR  
Galvalume

## BUILDING END-USE

Warehouse

This massive 400,000 sf warehouse utilizes one gable symmetrical 500' x 800' framing system. Many framed openings are integrated into the structure's design for windows and 20 vertical lift doors for shipping and receiving. Exterior wall panels feature a split color combination with polar white above and midnight black below. The facility is enclosed using Nucor's CFR roof system in galvalume.
