CUSTOM METAL BUILDING SYSTEMS **AVIATION**

a **NUCOR** company

As a leader in innovation, Nucor Building Systems works continuously to develop products that are some of the most versatile, energy-efficient and cost-effective building solutions on the market today. We work closely with our customers to gain a deeper understanding of their needs then develop new solutions or improve existing ones that provide them with high-performance, competitive products. From our proprietary design products, such as TrussFrame, to our insulated metal panels with cool coating technology, our products allow our customers to increase efficiency and qualify for LEED® points.

As an industry leader, our strength, capacity and resources offer unprecedented value to our customers. Our integrated infrastructure allows us direct access to an uninterrupted supply of steel and the ability to provide our customers with single source solutions for a wide range of products.

AVIATION

With over 30 years of experience, Nucor Building Systems understands the special needs and requirements of aviation facilities. From small private hangars and FBOs, to large clear span facilities for corporate and commercial airlines such as MROs, to related fuel stations, warehouses and terminal buildings, we offer a full flexible product line that is custom designed to meet each client's unique needs. Our building systems utilize green building materials which helps lower total operational costs, while other features such as custom hangar doors or specialty equipment can be incorporated into your custom metal building design to increase safety and performance.

Powerful Relationships. Powerful Results.

Nucor Building Systems is a division of Nucor Corporation, North America's most diversified steel and steel products company. Their integrated infrastructure allows us direct access to an uninterrupted supply of steel. As a result, we have the ability to provide our customers with single source solutions for a wide range of products. Our strength, stability, capacity, resources, and customer-driven focus offer unprecedented value to our customers.

Nationwide Authorized Builder Network

With a coast-to-coast Authorized Builder network, there is likely an experienced Nucor Builder in your local area to partner with on your custom metal building solution. We can also help government and municipalities with facility project needs through our Sourcewell pre-engineered buildings contract. Learn more about how Sourcewell can satisfy your competitive bid requirements and simplify the extensive bid process by visiting www.nucorbuildingsystems.com/sourcewell.

Innovative, Cutting Edge Technology

As leaders in innovation, we continuously develop some of the most versatile, energy-efficient and cost-effective building solutions on the market today. We work closely with our customers to gain a deeper understanding of their building needs. As a result, we develop new solutions or improve existing ones that provide you with high-performance, competitive products.

Superior Product Systems

Nucor Building Systems has raised the metal building industry bar with our high-performance products designed to meet your unique needs. We offer a full range of metal building framing options, industry-proven roof panel systems, attractive wall panels, insulated metal panels, energy-saving prismatic skylights, innovative mezzanines, and multiple building accessories.

Technical 3D BIM Design Strength

Each Nucor building system is custom designed from the ground up utilizing Tekla BIM 3D software. You will have a digital prototype that incorporates all aspects of your building from framing to components such as electrical, plumbing and HVAC, which facilitates coordination and cooperation between all principal trade contractors on your project. This allows issues to be addressed early in the process, before your building is manufactured – saving you time and money, and bringing your building to life faster and more efficiently than ever before.

a **NUCOR**® company

Nucor Building Systems has been a leader in the design and manufacture of custom-engineered metal building systems for over three decades. With four locations and a network of over 1,200 Authorized Builders serving all of North America, our focus is on customer service, price, and quality. We are also dedicated to providing sophisticated building solutions for our customers that are energy efficient and environmentally friendly.
