Main	Standing Seam	CFR Roof	Embossed	Embossed	4"	42"	26 ga.	IG	Factory Applied - One Groove	

The Metl-Span panels that are now priceable in eQuote will no longer prompt you to get adjusted pricing from estimating. This will save you valuable time and will add another tool to the eQuote toolbox of priceable options!

The pricing for the Metl-Span panels will show up in the Buyout section of the Builder Summary Report. The weight will not be reflected on the summary.

Builder Summary Report

Building Components	Total Estimated Project Weight (lbs)	Total Estimated Project Price
