LOCATION

Spokane, WA

SIZE

33,000 sf

WALL SYSTEM

R-Panel/Reverse R-Panel
Fox Gray

ROOF SYSTEM

Nucor CFR
Fox Gray

BUILDING END-USE

Aircraft Hangar

This FBO facility features 27,000 sf of hangar space with an attached office. The structure utilizes Nucor's CFR roof system in Fox Gray while the exterior walls are clad with Nucor's R-Panels and Reverse R-Panels in Fox Gray as well.

The office entrance is designated by a boxed-out at eave canopy, providing a finished, decorative appearance. The canopy is finished in the Nucor Reverse R-Panel in Dark Bronze and is contrasted with the same panel in Terra Cotta at the right end wall and half of the front side wall. Glass storefront and decorative metal window canopies add to the overall modern aesthetic. The hangar boasts two large fabric roll-up doors opening to 225'X 120' of hangar space.
